

New Registrant Position Available

Full caseload available

Windsor and Essex County is a wonderful place to live with Detroit right across the river. We have all the cost savings, safety, and low commute times of a small city but have the advantages of a large city, with great shopping and an international airport all within a 10-30 minute drive. Windsor is the 4th largest ethnically diverse city in Canada. We also have great restaurants, entertainment and wineries at our door step.

We are seeking 1 NEW REGISTRANT. With up to a full case load to start. Our preferred candidate would receive a minimum of a 2 year contract.

Off call is reasonable with 2 months a year and 5-8 days a month and we practice a primary care model, with coverage for off call times. We work as a team and cover for each other during your time off.

We are a well-established practice seeking midwives who wish to work and remain in Windsor.

Our practice is busy with a good rural and urban mix. We have about a 30% home birth population.

We provide full scope of practice within our hospitals.

We deliver at Windsor Regional Hospital Metropolitan Campus which is a level 2-3 hospital.
